## Part III REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art 1. of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), an information process method of generating print data to be printed by a printer, based on template data which includes a front cover page, a body page and a back cover page, comprising fitting one or more desired original images in one or more placing frames of the body page and generating an output body page; setting whether the back cover page is positioned on an independent sheet of the output body page; when a final output body page is positioned on a front face of a sheet and it is set in said setting step that the back cover page is positioned on an independent sheet of the output body page, generating an insert page at a back of the final output body page and positioning the back cover page on a back face of the next sheet; and when a final output body page is positioned on a front face of a sheet and it is not set in said setting step that the back cover page is positioned on an independent sheet of the output body page, positioning the back cover page on a back face of the same sheet of the final output body page, and generating print data of the positioned pages as claimed in claim 43. Similar features are claimed in claims 46, 49, and 52. Therefore, claims 46, 49, and 52 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
